**Color Options;** Silver and gold anodized

## Trim and Level Difference Profiles

### GP 25

Fully compatible with parquet, ceramic, granite and marble lightweight...

**Application Method;** Easy to apply with adhesive

**Product Length;** 2,70 LM

**Color Options;** Silver and gold anodized

### GP 30

Decorative trim profiles with hidden screw channel. Fully compatible with parquet, ceramic, granite, marble etc...

**Application Method;** Easy to apply with adhesive or screw

**Product Length;** 2,70 LM

**Color Options;** Silver and gold anodized

### GP 30-2

Fully compatible with parquet, ceramic, granite and marble lightweight...

**Application Method;** Easy to apply with adhesive

**Product Length;** 2,70 LM

**Color Options;** Silver polish stainless steel

### GP 32

Fully compatible with parquet, ceramic, granite and marble lightweight...

**Application Method;** Easy to apply with adhesive

**Product Length;** 2,70 LM

**Color Options;** Silver and gold anodized

### GP 35

Fully compatible with parquet, ceramic, granite and marble lightweight...

**Application Method;** Easy to apply with adhesive

**Product Length;** 2,70 LM

**Color Options;** Silver and gold anodized

## Trim and Level Difference Profiles

### KF 28

Decorative level difference profile, fully compatible with parquet, ceramic, granite, marble etc...  
**Application Method;** Easy to apply with adhesive or screw  
**Product Length;** 2,70 LM  
**Color Options;** Silver and gold anodized

### KF 35

Decorative level difference profile, fully compatible with parquet, ceramic, granite, marble etc...  
**Application Method;** Easy to apply with adhesive or screw  
**Product Length;** 2,70 LM  
**Color Options;** Silver and gold anodized

## Trim and Level Difference Profiles

### KF 45

Decorative level difference profile, fully compatible with  
parquet, ceramic, granite, marble etc...  
**Application Method;** Easy to apply with adhesive or screw  
**Product Length;** 2,70 LM  
**Color Options;** Silver and gold anodized

### GP 37

Decorative level difference profile, fully compatible with  
parquet, ceramic, granite, marble etc...  
**Application Method;** Easy to apply with adhesive or screw  
**Product Length;** 2,70 LM  
**Color Options;** Silver and gold anodized

### GP 38

Decorative level difference fully compatible with  
parquet, ceramic, granite, marble etc...  
**Application Method;** Easy to apply with adhesive or screw  
**Product Length;** 2,70 LM  
**Color Options;** Silver and gold anodized

### GP 39

Decorative level difference fully compatible with  
parquet, ceramic, granite, marble etc...  
**Application Method;** Easy to apply with adhesive or screw  
**Product Length;** 2,70 LM  
**Color Options;** Silver and gold anodized

### GP 50

Decorative level difference fully compatible with  
parquet, ceramic, granite, marble etc...  
**Application Method;** Easy to apply with adhesive or screw
